

GIRL IN THE WINDOW

R. J. Burling

See her standing there, from the street below
Close my eyes and hold her close to me
Wonder if she knows I'm here
Or if she really would care
See her as I pass by here each day

Often wondered how she would feel to hold
Put my arms around her in my mind.
And I hold her close to me
Taste the sweetness of her lips
Feel the love as bodies they entwine

Girl in the window, up there above
Please come and let me share love
How I dream I could share your embrace
Every day in this place.

Now she stands so close: right in front of me
Did not see her come into my world
"Come and run with me, my love."
Are the words I heard her say,
Then my life will be complete in you

My heart missed a beat as she came to me
Slender body pressing into mine.
Right there on the street we kissed.
Our love now had just begun
For ever one our love will grow true
